

Glass-like transparency. A new material that is light & shatter-resistant.

Beauty and strength for your everyday table.

More security and comfort in your daily life. The **HARIO** × **tritan** series uses Tritan™, a highly transparent, shatter-resistant, and heat-resistant material.

What is **tritan**™
from eastman

01 Highly heat resistant

Safe for hot water and dishwashers.

01

02 Shock resistant

Even if dropped, it is less likely to break, crack or scratch.

02

03 High transparency

With glass-like transparency, the color and appearance of the drink can be seen clearly.

03

04 Safe material **BPA FREE**

Eastman's Tritan is a safe material recognized for its safety by regulatory agencies worldwide.

04

05 Does not easily transfer odors

Even if you put in a strong-smelling drink, odors are not easily transferred.

05

A Tritan teapot with glass-like clarity, yet lightweight and shatter-resistant.

A Tritan teapot with glass-like clarity, BPA-free safety, high heat resistance, and impact durability. Its direct extraction design allows tea leaves to fully expand, enhancing flavor. The smooth-pouring spout ensures effortless serving. With an odor-resistant material and a removable filter, it is easy to clean.

Tea Pot MULTEA

Tea pot that even beginners can brew tasty and measurable tea. It can be used in a microwave oven and can be used for multiple purposes, including green tea, black tea, tea, etc.

The important thing to make delicious tea is to "measure the amount of tea leaves" and "measure the amount of hot water".

The pot has a guide for measuring the amount of tea leaves and hot water so that even beginners can easily brew delicious tea.

There are many convenient features for everyday use. This teapot can be used for a variety of purposes, including hot tea, cold brew, and tea bags.

Guide lines on the back of the lid for measuring tea leaves. It can measure about two heaping tea spoons' worth of tea leaves.

The pot body has a guide mark that is easy to see from the inside for measuring hot water.

For microwave

The lid has a filter, so you can just pour the tea leaves and hot water directly into the pot.

The wide-mouthed pot makes it easy to wash and pour. It doesn't have a tea strainer, so it's easy to clean.

Easy-to-use Teapot Multea
OTPM-40-PGR

C/T24 091900
W164 x D116 x H112mm
Full capacity 400mL

Material: Body / Heatproof glass
Lid, Grip / Polypropylene
Mesh / Polyester resin
Bushing / Silicone rubber

Can be used for black tea, herbal tea, tea bags, and cold brew.

You can reheat tea in the microwave with the lid on.

Compatible with microwave ovens with an internal height of 19cm or more.

Can be stored in a refrigerator door pocket with a depth of 11cm or more.

A perfect pot that fits neatly in the microwave and refrigerator.

To enjoy the deep flavor of barley tea, you need to boil water over an open flame, then take the time to cool it down after extraction. Easy Barley Tea Pot Mugichan in the microwave allows you to quickly extract strong barley tea by heating a small amount of water in the microwave and adding a tea bag. After that, you can dilute it with water and enjoy the deep flavor of barley tea. No fire is used, so it's safe.

The lid has a tea strainer, so you can make hot or cold tea with various tea leaves. It has a generous capacity of 1,000ml. It fits in the door pocket of your refrigerator.
